## List of Decisions:

#	Decision
D18-1	Update Vision 2030/RM2 document with board feedback; integrate new EO targets as milestone towards 2030, keep up excitement level in document, emphasize magnitude of change, policy approach is one that expects a portfolio of options, integrate broader hydrogen and energy perspectives, and emphasize MHD especially need for infrastructure.
D18-2	Plan for CaFCP role in Global Climate Action Summit (Sept 2018), with the Hydrogen Council and as outreach to other states. Not likely a CaFCP board meeting, but leverage event to its fullest, including highlighting Vision 2030/RM2.
