

**Southern California**  
**Retail Hydrogen Station Network Status in California**  
**Updated 26September2023**

*A large number of Southern California Hydrogen stations are not available due to a disruption in the availability of gaseous hydrogen.*

*Hydrogen stations that have alternate supply chain continue to be available, noting that these stations will experience higher than normal demand. Time of disruption resolution is not known. We will post additional information as we receive it. Drivers are encouraged to plan their refueling by checking station status at <https://m.h2fcp.org> or their preferred hydrogen station status app.\**

*Stations **Unavailable** due to the supply disruption:*

<b>Station Name</b>	<b>Address</b>
